

In regards to Docket 04-233, I would like to express my support for FM translator stations, which may not be local in nature, but provide a valuable benefit to the local community. I listen to K-LOVE in Cincinnati, Ohio at 104.3 FM. This station provides the only 24-hour Christian music format in the area. It is a great source of inspiration and encouragement to me personally, and many friends of mine. The displacement of this station with an LPFM would remove a critical source of light and hope which K-LOVE currently provides to the local community. While LPFM stations should have a place in any community, I do not believe they should take precedence over FM translator stations such as K-LOVE, which also are a positive impact on the local communities in which they broadcast.
